## Forwarded by Principal

Welcome to the wonderful and exciting world of pharmacy. The pharmaceutical industry is one of the biggest human service industries, closely associated with the health of all living beings. Doctors can not help the patients without medicines. No health service including surgery, nursing, or Physiotherapy is possible without medical devices or other medicinal agents. But everywhere faculty and staff members are required. The very essential step by the management of the college is to put the policy. It defines the rules that staff have to abide by, the code of conduct, and their responsibilities toward the institute. It also states the staff rights and motivation policies to encourage them to work to their best potential. I am sure this staff policy document will be useful to all staff. I acknowledge the policy documents are very essential and useful throughout the life of the faculty who work here. I assure that all the points are covered in this document.
